

FIG.1

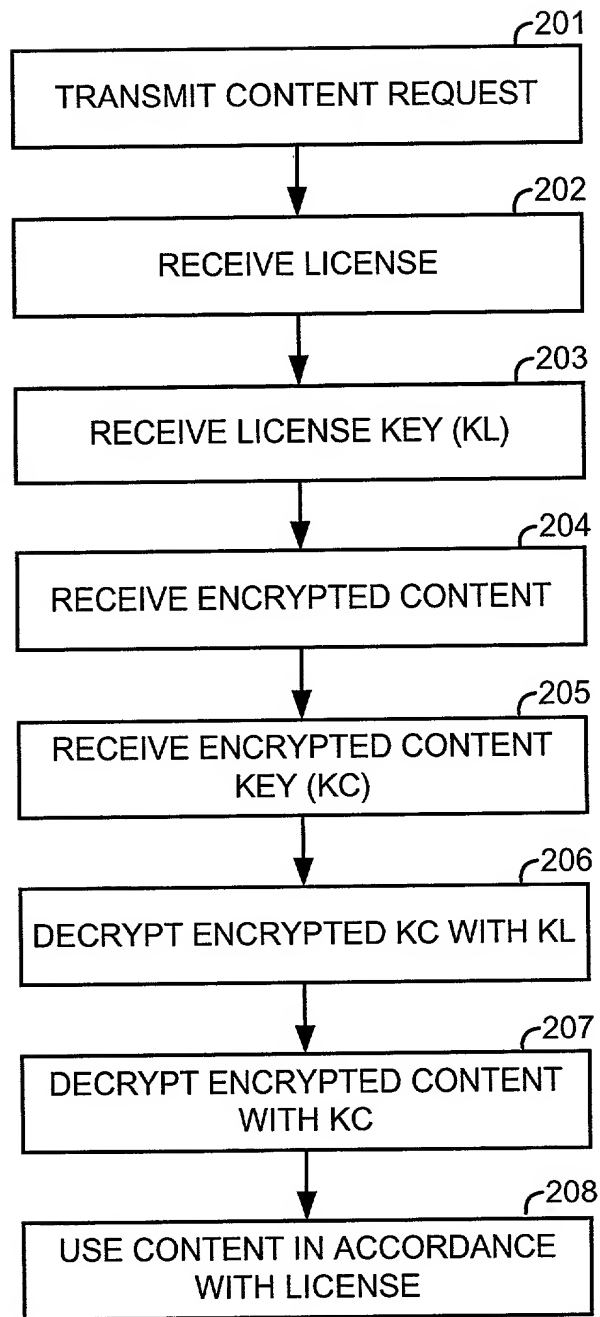

FIG.2

The diagram illustrates a communication system. On the left is a rectangular block labeled "SERVER" with reference numeral 401. On the right is a rectangular block labeled "CLIENT" with reference numeral 402. Between them are two cloud-shaped blocks, both labeled "COMMUNICATION MEDIUM". The top cloud is labeled 404 and has a single-headed arrow pointing from the SERVER to the CLIENT. The bottom cloud is labeled 403 and has double-headed arrows pointing in both directions between the SERVER and the CLIENT.

The diagram illustrates a content distribution system architecture. It features a central **CONTENT SERVER** (501) connected to two **COMMUNICATION MEDIUM** (504 and 506) via bidirectional arrows. The **COMMUNICATION MEDIUM** (506) is connected to a **LICENSE SERVER** (503) via a downward arrow. The **LICENSE SERVER** (503) is connected to a **CLIENT** (502) via a **COMMUNICATION MEDIUM** (505). The **CLIENT** (502) is also connected to the **COMMUNICATION MEDIUM** (504) via a bidirectional arrow.
